◆ TECHNICAL PROFICIENCY:

Programming Languages:
TypeScript, JavaScript

Frameworks: Angular,
Bootstrap, Jasmine

Databases: Basic Knowledge
of MySQL

Web Technology: Angular
HTML5, XML, JavaScript,
jQuery, CSS, Flex Box, Angular
CLI, Angular Material, JSON,
AJAX

Testing Tools: Postman

Operating Systems: Windows,
Linux

Defect Tracking Tools: JIRA

Continuous Integration:
Jenkins

IDE/Editors: Visual Studio
Code, VS Code, Sublime Text,
Notepad++, WebStorm

SDLCs: Waterfall, Agile, and
Scrum

Aakanksha Raut

Software Developer

Dedicated and results-oriented Frontend Angular Developer with a passion for crafting dynamic and intuitive user interfaces. Seeking a challenging position where I can leverage my expertise in Angular, JavaScript, and related technologies to contribute to the development of cutting-edge web applications. Eager to collaborate with cross-functional teams, apply best practices in UI/UX design, and drive innovation in a dynamic work environment. Committed to continuous learning and staying abreast of emerging trends to deliver impactful and user-centric solutions. Aspiring to bring a blend of technical proficiency, creativity, and a strong commitment to excellence to a forward-thinking organization.

◆ TECHNICAL CORE COMPETENCIES

Highly skilled in TypeScript and JavaScript, with hands-on experience in Angular, Bootstrap, and Jasmine frameworks. Possesses a foundational understanding of MySQL databases. Proficient in a wide range of web technologies including Angular HTML5, XML, JavaScript, jQuery, CSS, Flex Box, Angular CLI, Angular Material, JSON, and AJAX.

Utilizes Postman for effective testing, and JIRA for defect tracking. Experienced in continuous integration using Jenkins, and adept at debugging with Google Chrome Web Debugger Development Tools. Well-versed in version controls such as Git and SVN.

Comfortable working across different operating systems including Windows and Linux. Proficient in popular IDEs/Editors like Visual Studio Code, VS Code, Sublime Text, Notepad++, and WebStorm. Familiar with various software development life cycles including Waterfall, Agile, and Scrum methodologies.

◆ TECHNICAL SKILLS

With 3 years of experience in designing User Interface (UI) applications and professional web applications, I bring a strong skill set in HTML5, XHTML, CSS3, LESS, SASS, AJAX, and XML. My expertise extends to JavaScript, jQuery, Angular, Aurelia, and VueJS front-end frameworks, with a focus on implementing Angular for fast and efficient development and testing.

I possess a comprehensive understanding of the Software Development Life Cycle (SDLC), participating in SCRUM meetings to track project status. Familiarity with Test-Driven Development and Agile Methodology enhances my proficiency in delivering high-quality solutions.

As an Angular specialist, I have hands-on experience with Angular components, controllers, directives, services, routings, and events across versions 2 to 13. I am adept at developing modular UIs and backends, demonstrating the ability to quickly learn and deliver solutions both individually and collaboratively within a team.

My knowledge extends to integration and development of RESTFUL web APIs, as well as proficiency in Version control using GIT Hub. I ensure cross-browser compatibility through testing on Internet Explorer, Google Chrome, Firefox, and Safari.

Utilizing tools such as Visual Studio Code and Notepad++, I have honed my skills in Typescript and effectively debugged using the Chrome Developer Toolbar. My commitment to continuous learning and problem-solving contributes to my success in delivering impactful UI applications.

PERSONAL PROJECTS

Project Name : Sotheby's Client : RM Sotheby's (US) Domain : E-commerce

- ◇ Developed the project's web page as Single Page Application (SPA) by using Angular. • Worked within a lean agile environment and continuous delivery, did pair programming with Junior/Senior developers. • Built custom directives to build application components for rendering grids and maps. • Created forms to collect and validate data from the user in HTML and JavaScript. • Responsible for checking cross browser compatibility and hence worked on different browsers like safari, Internet explorer, Firefox and Google chrome. • Designed and developed HTTP calls to populate screens parts on demand • Created dynamic HTML5 pages with JavaScript and CSS3 for their product. • Designed, implemented, handled a whole separate important module of product through which data can be entered within a system.

Project Name : CALVIN KLEIN Client : Leo Klein (US) Domain : Retailer

- ◇ Designing and implementing user interfaces using Angular frameworks. Developing modular, scalable, and maintainable front-end components. Ensuring high performance and responsiveness of applications. Collaborating with UX/UI designers to translate design concepts into functional components. Writing clean, efficient, and well-documented code. Implementing responsive design principles to ensure optimal user experience across various devices. Participating in the architectural design and decision-making processes. Implementing best practices in application architecture and code organization. Utilizing version control systems (e.g., Git) for codebase management. Collaborating with cross-functional teams, including back-end developers and UX/UI designers. Creating and maintaining technical documentation for the codebase. Documenting coding standards, processes, and best practices. Working in an Agile development environment, participating in sprint planning, and delivering features on time. Staying updated with the latest trends, tools, and technologies in front-end development. Actively participating in professional development and training opportunities.
